Battery Powered LED Mirrorball Motor

User Manual

Please read through this manual thoroughly before use, any damage caused by misuse of product will not be covered by warranty.

Low noise motor for mirror balls up to 3kg. Features 18 focused LEDs to create an amazing pin spot effect. Static or slow changing colour options.

In the box:

Your mirrorball motor should arrive with you in a single carton in good condition. The carton should contain 1 x main unit and 1 x manual.

Specifications:

- Power source: 3x AA batteries (not supplied)
- Max. weight load: 3kg
- Revs. per minute: 6
- Dimensions: 80 x 131mmØ
- Weight: 290g

Warning:

To prevent risk of fire or electric shock, do not expose the unit to rain or damp environments. Install at a distance of no less than 0.5m from flammable materials and ensure the mirrorball used is no more than a tenth of the max. weight load of the motor for continued reliable operation. Ensure the motor is installed horizontally using a spirit level and that the mirrorball and motor are out of arm's reach. Use all the mounting holes provided during installation and use only the attached chain for safety reasons. Always remove the batteries when not in use for long periods to avoid leakage and damage to the unit.

Please do not open cover. This product is not serviceable or repairable by the end user. Please refer to qualified personnel for service and repair.

This product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The goods must be disposed of according to your local council guidelines.
