 155.427UK – Warm white
 155.428UK – Cyan

High quality LED icicle lights with a 2/6/2/6/3/5 hanging combination. The controller features 8 pre-programmed sequences, allowing you to adjust the mode to your preference. Switching the lights on triggers an operating cycle with 8 hours on and 16 hours off allowing the lights to automatically come on at the same time everyday. The high quality LEDs have a long lifespan and are energy efficient making them ideal for decorating homes, shops etc.

- Suitable for indoor and sheltered outdoor area use
- 8 pre-programmed sequences: Combined, Waves, Sequential, Slow-glow, Chasing, Slow-fade, Twinkle, Steady-on
- Automatic timer: 8 hours on and 16 hours off
- Mains plug to first LED: 10m
- Concave shaped LED head gives consistent and uniformed brightness at all angles

Specifications

Power supply	24Vdc, 250mA
Power consumption max.	6W
No. of LEDs	240
LED spacing	100mm
Drops	200, 300, 500 & 600mm
LED length	6m
Overall length	16m
IP rating : string light	IP44
IP rating : controller	IP20
Cable colour	White
Weight	1.2kg

Assembly

- Remove the parts from the box and untangle the wires carefully
- Connect the string lights to the power supply unit
- Ensure the power supply unit is located indoors and is not exposed to the elements

Installation

Continuous operation (without timer)

Press the control button and select the preferred program from the 8 functions.

Timer operation

8 hours on followed by 16 hours off from the time of first power up. Press and hold the control button until the red LED illuminates, then press to select the preferred program from the 8 available functions.

Warnings

- Do not power the string lights while the item is coiled and inside the packaging.
- Fully de-tangle the string lights and uncoil the cable before operating.
- Use only the supplied transformer with adequate ventilation.
- Disconnect from the mains when not in use.
- Transformer should be located indoors and protected from the elements.
- Avoid damage to the transformer, LEDs and wiring insulation. Do not use when damaged.
- Do not expose to direct heat or flames and do not immerse in water.
- Do not attempt to power any further string lights from this product.
- Do not attempt to remove bulbs. LED bulbs cannot be replaced.
- The wire insulation should not pass over any sharp or potentially damaging surfaces.
