

# LED String Lights with Auto-Timer Control

## User Manual

Item refs:	104 LEDs	200 LEDs
	155.560UK – Cool white	155.564UK – Cool white
	155.561UK – Warm white	155.565UK – Warm white
	155.562UK – Multicolour	155.566UK – Multicolour
	155.563UK – Cyan	155.567UK – Cyan

A range of LED string lights with 8 pre-programmed sequences allowing you to adjust the mode to your preference via the included controller. Switching the lights on triggers an operating cycle with 8 hours on and 16 hours off allowing the lights to automatically come on at the same time everyday. The high quality LEDs have a long lifespan and are energy efficient making them ideal for indoor and sheltered area decorations.

- Suitable for indoor and sheltered outdoor area use
- 8 pre-programmed sequences: Combined, Waves, Sequential, Slow-glow, Chasing, Slow-fade, Twinkle, Steady-on
- Automatic timer: 8 hours on and 16 hours off
- Mains plug to first LED: 5m
- Concave shaped LED head gives consistent and uniformed brightness at all angles

## Specifications

Power supply	24Vdc, 150mA	
LED spacing	50mm	
IP rating : string light	IP44	
IP rating : controller	IP20	
Cable colour	Dark green	
No. of LEDs	104 LEDs	200 LEDs
Power consumption max.	3.6W	3.6W
LED length	5m	10m
Overall length	10m	15m
Weight	240g	398g

## Assembly

- Remove the parts from the box and untangle the wires carefully
- Connect the string lights to the power supply unit
- Ensure the power supply unit is located indoors and is not exposed to the elements

## Installation

### Continuous operation (without timer)

Press the control button and select the preferred program from the 8 functions.

### Timer operation

8 hours on followed by 16 hours off from the time of first power up. Press and hold the control button until the red LED illuminates, then press to select the preferred program from the 8 available functions.

## Warnings

- Do not power the string lights while the item is coiled and inside the packaging.
- Fully de-tangle the string lights and uncoil the cable before operating.
- Use only the supplied transformer with adequate ventilation.
- Disconnect from the mains when not in use.
- Transformer should be located indoors and protected from the elements.
- Avoid damage to the transformer, LEDs and wiring insulation. Do not use when damaged.
- Do not expose to direct heat or flames and do not immerse in water.
- Do not attempt to power any further string lights from this product.
- Do not attempt to remove bulbs. LED bulbs cannot be replaced.
- The wire insulation should not pass over any sharp or potentially damaging surfaces.
