

DL-50

Item ref: 174.173UK

Delay Pedal

User Manual

Caution: Please read this manual carefully before operating
Damage caused by misuse is not covered by the warranty

Thank you for choosing a Chord effect pedal to give your instrument a new sound dimension. Please read below for an explanation of the controls and to get the best results from your new effect.

Each Chord 50-series effect pedal is supplied with a 9V battery, which needs to be connected to the battery clip inside the underside battery compartment. Carefully remove the plastic cover by squeezing its clip and levering outwards. Clip back into place once the battery is fitted.

Controls and connections are described below.

1. Optional 9V DC jack power input
2. Effect on/off indicator
3. Time - adjusts the time delay between repeats
4. 6.3mm jack output - to amplifier
5. Feedback - varies the number of delay repeats
6. Effect Level - adjusts the amount of effect added
7. 6.3mm jack input - from guitar
8. Effect on/off footswitch

The DL-50 is a classic delay effect for slapback, doubling and echo effects. Lower settings on the Time controls produce a short delay time for fast doubling repeats and higher settings produce long rebounding delays. Feedback varies the number of repeats from a single repeat to almost infinite. The Effect Level control adjusts the amount of delayed sound mixed back in with the original. Delay can be a prominent effect or in the background to add warmth and space to the guitar tone.

Unplug the guitar input jack to preserve the battery when not in use. If the pedal is not being used for long periods, it is advised to remove the 9V battery. Optional external power can be from a 9Vdc adaptor, centre-negative polarity with a rating of 100mA or higher recommended.

Disposal: The "Crossed Wheelie Bin" symbol on the product means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The goods must be disposed of according to your local council guidelines.
