Weight	110g (421.775UK), 195g (421.776UK)

### Charging the power bank:

- **Note:** always fully charge the power bank before first use. This unit requires 3 to 4 full drains and recharges before working to its optimum performance.
- When not used over long periods always recharge the unit every 3 months.
- To charge the unit, first insert the USB-A plug end of the charging lead into a USB port on either a PC or laptop, or a certified USB power supply.
- Next insert the micro USB plug end of the charging lead into the micro USB charging port on the power bank.
- The LED display on the power bank will light up and show the current charge level of the unit as a percentage. The second digit will flash to show the unit is charging until 100% charge is achieved.
- To view the current charging status of the power bank at any time, press the power button on the side of the unit.

### Connecting the power bank to your device:

- **Note:** always check the voltage compatibility of your device before connecting to the power bank.
- Insert the device's regular USB charging lead into one of the USB ports on the power bank.
- Connect the device to the other end of the lead and check the display on the device to ensure charging is taking place.
- When charging is complete always disconnect your device and the charging lead from the power bank.
- This unit can be used to charge all Android and iOS devices when using the recommended charging lead supplied with the device.

- **In the Box:**

- 1pc Power bank
- 1pc USB charging lead
- User Guide

**Safety warnings:**

- Improper use may result in product damage, decreased battery life and loss of charging capacity not covered by the manufacturer's warranty.
- Always check the device voltage for compatibility before use.
- Only charge the unit from a PC, laptop or certified USB power supply.
- Do not store the power bank in high or low temperature environments or enclosed areas without ventilation.
- Never drop, throw or subject the unit to excessive force as this may damage its internal components.
- If the unit becomes excessively hot, emits an odour, occurs body damage or becomes deformed in any way stop using it immediately.
- Never use any harsh chemicals or cleaning agents on the exterior of the unit.
