

PIR

PIR Sensor Lamp Holder

Item ref: 522.010UK

User Manual

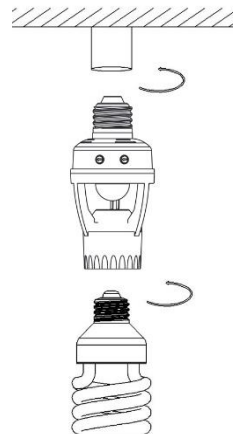

Introduction

Thank you for choosing the Primalux PIR Sensor Lamp Holder. This lamp holder can help save energy in many different environments such as; the home, the workplace and hotels etc.

The lamp holder only allows the light to illuminate when necessary so that when movement is detected the lamp will power on according to the settings.

Installation

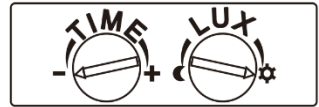

- Whilst installing please ensure that the power is off to avoid any possible harm.
- Then fix the holder into the correct fitting (E27) to the install location.
- Screw in the E27 fitting and then connect an E27 lamp of your choice to the bottom of the holder.
- Please ensure that both the lamp holder and the lamp are screwed in correctly and tightly.
- Once installed, turn the power back on and check to ensure the holder functions correctly.
- Please see the right image for extra assistance on installation.

Testing

- After installation, turn the LUX switch clockwise to the maximum setting (SUN)
- Turn the TIME switch anti-clockwise to the minimum setting (-)
- For extra guidance please see picture.
- Turn on the power to test, if no light output check settings after 30 seconds.

Note: When testing the sensor in daylight, please turn the 'Lux' switch to ☀ (SUN) position, otherwise the sensor lamp could not work.
