

citronic Flatbed Mixers

Flatbed Mixers, also known as tabletop mixers, are widely used for live sound and studio work.

With controls on the top surface, they offer easy access making them ideal for stage shows, monitor mixing, home studios, and pro recording setups. We offer a diverse range of flatbed mixers to suit different audio environments and applications - from powered mixers providing all-in-one solutions, to live mixers offering advanced control and routing, and compact mixers delivering fast setup with quality performance.

PRODUCT NAME	CSP-408 POWERED MIXER WITH DSP	CSP-410 POWERED MIXER WITH DSP	CSP-714 POWERED MIXER WITH DSP
Item Code	170.841UK	170.843UK	170.845UK
Power Supply	230Vac 50Hz (IEC)		
Design	Flatbed		
Phantom Power	+48V (XLR inputs)		
Inputs	4 x balanced XLR/TRS jack +2 x L+R jack	6 x balanced XLR/TRS jack + 2 x L+R jack	10 x balanced XLR/TRS jack +2 x L+R jack
Main Outputs	Balanced main outputs, speaker outputs (L+R)	Balanced main outputs, speaker outputs	Balanced main outputs, SPK outputs L+R
DSP / Effects	24-bit, 16 program DSP effects		
Channel EQ	3-band EQ per channel		
THD	<0.01%		
Weight	6.80kg	7.35kg	10.40kg
Dimensions	315 x 322 x 153mm	369 x 322 x 153mm	477 x 322 x 153mm
In the box	1 x CSP-408 powered mixer + IEC power lead(s)	1 x CSP-410 powered mixer + IEC power lead(s)	1 x CSP-714 powered mixer + IEC power lead(s)
Feature Summary	8 input, with 2 x 200W internal amplifier	10 input, with 2 x 200W internal amplifier	14 input, with 2 x 350W internal amplifier
Application Scenarios	Ideal for small bands, karaoke setups, or community events needing simple mixing.	Ideal for small bands, school events, or church setups requiring multiple mic inputs, clear sound, and flexible power output.	Designed for live performances, medium venues, and mobile PA systems demanding high power, extensive input capacity, and professional-quality DSP processing.
