

## MPJM40

### Micro Projector Ceiling and Wall Mount

#### User Manual

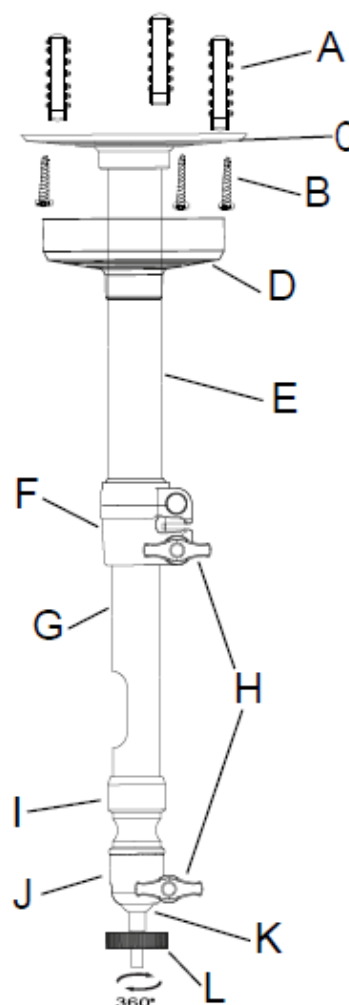

A compact and lightweight mounting that can be used on ceilings or walls for the latest micro projectors, digital cameras and camcorders. The telescopic mounting rod allows drop adjustment from 350 to 500mm and the additional ball joint fixing makes tilt adjustment possible for sideways or angled applications where required. Finished in an attractive satin black and supplied with fixing plugs and screws this mount is ideal for home, leisure and business requirements.

#### Features:

- Universal 1/4"-20 thread fits most new micro projectors as well as digital cameras and camcorders
- Supplied with ball joint fixing that enables tilt angle adjustment for multi-positioning
- Strong, lightweight design that can be ceiling or wall mounted
- Telescopic mounting rod with internal cable routing
- Installation hardware included
