520.195UK	600x1200mm LED Panel Surface Mount Kit

Introduction

Thank you for choosing the Primalux LED Panel Surface Mount Kit for your lighting installation. Please use and retain the following instructions as a guide when installing the above products.
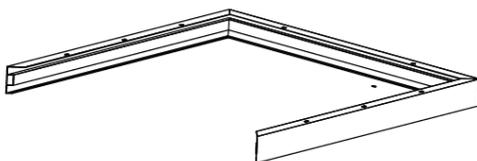

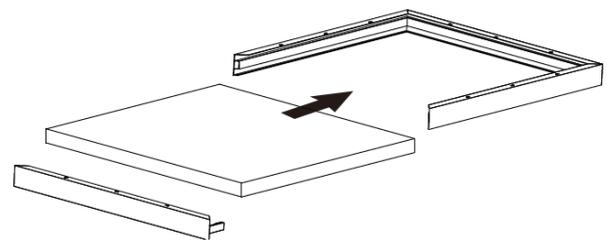

Installation

1. First take two pieces of aluminum, Then use four shrapnel to snap into the aluminum (Two shrapnel per aluminum) .

2. First take an aluminum material into the shrapnel side, and then insert an aluminum material into the shrapnel side.

3. After the second step is completed, you can pick up the mounting hole to the ceiling drill hole, drill it with the charging drill, and then install it on the ceiling.

4. Push the lamp forward and connect it to the power supply, then install the fourth side.

5. Installation is complete.
