

LED-BH305-14W4K

LED Circular Bulkhead Fitting IP54

Item ref: 522.450UK

User Manual

Introduction

A weatherproof LED bulkhead for both internal and external applications. Ideal for use in corridors, storerooms and environments where water could be present, this bulkhead fitting provides additional safety and security where required.

Safety

This is a mains powered product. It is designed to be installed by suitably qualified personnel only and in accordance with current building and electrical regulations. Before installation or maintenance, the electrical supply to the product must be isolated.

Luminaire Installation:

- To open the fitting rotate the polycarbonate cover anti-clockwise whilst holding the base.
- Using a cross head screwdriver unscrew the single crosshead screw allowing the plate to hinge open.
- Using the supplied fixing kit drill holes in each of the three mounting points and attach to the ceiling or wall.
- Create a hole in the rubber gland mounted in the base plate for the mains cable.
- Install the mains cable in accordance with current regulations.
- Close the hinged LED plate with the crosshead screw.
- Finally, fit the polycarbonate cover and rotate clockwise to seal.

Dimensions

305mmø x 84mm

Disposal: The "Crossed Wheelie Bin" symbol on the product means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The goods must be disposed of according to your local council guidelines.
